

# UE Expense Template

This template is designed for employees who incur business expenses and are not reimbursed by their employer. If you are claiming unreimbursed employee expenses in 2022, we need you to complete all of the necessary information that apply to the taxpayer or spouse. We have listed the most common expenses we see our clients claim. If you have expenses you incurred for your employer that we do not have listed, please include the description and amount in the other expenses chart.
